

We are a leading multinational in the automotive industry looking for high caliber people to join our China headquarters in Shanghai. We are currently offering the following positions:

Accounting manager

Job

The incumbent will manage the company accounting department in China. Key role and responsibilities include, within the framework of the Group and the local accounting standards:

- Establishing the Corporate Accounts / Financial statements (local and Group standards) within the required time frame.
- Preparing and coordinating daily accounting tasks and monthly closing activities with a high degree of integrity and accuracy.
- Supervising the establishment of the tax returns.
- Justifying the results to the management and the business units and determining the accounting impacts of their operations.
- Planning and managing the year-end audit to ensure statutory financial statements are issued timely and to obtain unconditional certification of the company's accounts.
- Proactively reviewing, recommending and implementing improvements of systems, procedures and controls as a member of the Group accounting network.

Requirements:

- CPA degree holder or equivalent.
- At least 5 years solid accounting managing experience, preferably with sizeable organizations. Experience in the PRC a plus.
- High proficiency in spoken and written English and Mandarin.
- Well organized, meticulous and strong leadership skills.

-Interested parties please e-mail your full resume with expected salary to career.servicegroup@cn.michelin.com.
